

OW

ORIENTAL WEAVERS

A pink tufted sofa is positioned on a light-colored wooden floor. A large, vibrant rug with a complex floral pattern in shades of red, pink, blue, and green is partially visible under the sofa. The rug has a dense, textured appearance.

ABOUT US

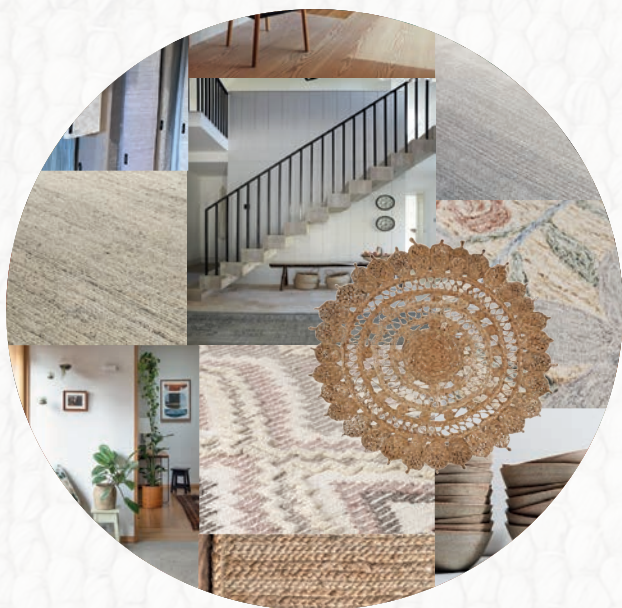

Established in the 1980's Oriental Weavers are one of the most recognisable brands in the rug industry. Our extensive knowledge and skills make us a market leader in innovation and development. We source a wide variety of machine and hand made rugs. From contemporary unique pieces to timeless traditional designs.

Our collection is fully stocked in our UK warehouse which is based in Leeds, West Yorkshire. We have a dedicated transport fleet, offering a unique delivery service. No **minimum order is required**, and **goods can be delivered in as little as 48 hours. Delivery is free of charge** to the UK Mainland and Northern Ireland.

TOP TRENDS 2019/20

SANCTUARY

The use of natural, sustainable products within the home has become a huge trend that is here to stay. Think natural products such as wool and jute paired with wood furniture, linen and cotton. To create the ultimate calming sanctuary within the home think harmonious neutral colour schemes, especially in the living room and bedroom.

FUNCTIONALITY

Indoor/Outdoor living has slowly been seen as a rising trend in the past few years. Now is really the moment to treat the outdoors as another room. Bring bold clashing patterns such as 'Siena' or 'Havana' for a mediterranean vibe or our 'Halden' for scandinavian paired back style.

GEOS

Geometrics are bold and bright this season, with an instant 80's retro feel. Think bright multicoloured palettes and simple geometrics. Interiors can be playful and experimental, and ranges such as our 'piccadilly' 'Descent' or 'Siena' will instantly brighten up a space, and will be a real talking point in the room.

BOHO REVISITED

Bohemian style has been given a twist this season, bright berber style rugs are still highly popular, however this trend brings more neutral and earthy tones to interior spaces. Think warm terracottas, beige, brown and pale blush pinks (and a few cactus plants) Popular in both traditional wool styles such as our new 'Catalina' or 'Navajo' and heatset polypropylene such as 'Atlas' for everyday ease.

M U S T A R D S

Mustard has long while been a firm favourite in the interiors world, however this year it has been revitalised as the perfect accent tone, or if very brave, as a full mustard monochromatic colour scheme. Mustard will work with any other colour and texture, for rich retro opulence pair with your favourite velvet sofa, or brighten up a neutral colour scheme with one of our on trend geometric designs such as 'Descent'.

N E U T R A L S

Neutral is the colour of 2019. Think warm caramel, greys, off white and pale blush tones to create a calming sophisticated space. With the increased need for calm relaxing spaces within the home, a neutral palette with rich textures, and varying shades will create the perfect space. Think rugs from some of our new ranges such as 'Alberolo' 'Vista' and 'Zarla'.

P I N K S

Aswell as the ever popular 'Millennial' or 'Blush' pink tone still a firm favourite, we now see deep pink/purple tones emerging, and earthy pinks. For standout style our bold floral 'Verona 173 Z' will bring glamour, opulence and warmth to a room, as its made from polypropylene it is easy to clean and non shedding, perfect for a busy home.

G R E E N S

Varying shades of green have been voted as colour of the year by key trendforecasters for 2020. Bringing the outside still continues to grow in popularity as people seek to be connected to nature. Think to add shades such as 'mint' 'sage' and 'teal' and plants throughout the home. For an exotic feel our 'tropicana' brings the wow factor, for a geometric/mid century modern look think 'Descent' or if looking for a plain style think 'Arabesque' 'Carter' or one of our shaggyies 'Isla' 'Serene' or 'Softness'.

BUYING GUIDE

MATERIALS

POLYPROPYLENE

Extremely hard wearing, non shedding, easy cleaning, bleach cleanable. Suitable for a high traffic area. Can be vacuumed or brushed easily. Perfect for a busy modern family. As a man made fibre, polypropylene can offer an authentic look and good value for money.

WOOL

Wool rugs are created using high quality wool yarns, usually made by hand by skilled craftsmen. Long lasting, retaining vibrancy. They are excellent insulators and retain an authentic look over time, some may say they improve with age. They do require maintenance, and some shedding may occur. If cared for properly they will last and last.

JUTE

Made from eco friendly plant fibres. Jute is highly versatile, and long lasting. A jute rug will create an instant authentically natural look to a room. They are harder underfoot than other materials, which makes them suitable for heavily used spaces like kitchens and dining rooms. Very easy to clean with a brush or nozzle attachment.

POLYESTER

Creates a beautiful sheen to a rug and is easy cleaning. Super soft touch, ideal for any shaggy rug. Works well when mixed with other fibres such as polypropylene. Non Shedding. and stain resistant, polyester is ideal for busy areas within the home.

VISCOSE

Viscose bring the ultimate luxury to the home, creating a beautiful super soft silk effect. Works perfectly when mixed with natural fibre rugs to add a soft sheen. Similarly viscose can also work well on its own, however it is better suited to a low traffic area due to having low stain resistance.

COTTON

Cotton is a soft, affordable alternative to a natural fibre rug like sisal or jute. Usually made into flatweaves for added durability. They are easy cleaning, and perfect for high traffic areas. Will usually require an antislip rug grip. Not as hardwearing as a natural fibre rug, but cost effective for a space short term.

NYLON

Very durable, easy cleaning and non shedding is a lower quality product so does feel more lightweight than other materials. Can often be machine washable, so an excellent rug to use as a playmat for children.

TECHNIQUE

HAND KNOTTED

Hand knotted rugs are composed of thousands of individual knots, the yarn is knotted around the warp and weft of the rug. The size of the knot determines the complexity and ultimately the quality of the rug, with the smallest knots creating the finer patterns. Each rug is completely individual, which is down to the skill and technique of the weaver, and the complexity of the pattern. Highly durable and suitable for high traffic areas, a hand knotted rug is a piece to treasure for many years.

HAND TUFTED

Hand tufted rugs are more affordable than hand knotted rugs, and still offer a great value product that will last for years to come. Created using a tufting gun, which punches pieces of yarn through to a stretched canvas backing. The weaver pencils out the design onto the backing, which allows for the rugs to be produced efficiently. This technique allows for unlimited detail and colour options.

HANDLOOMED

Handloomed rugs are excellently affordable, simple and high quality. These rugs are created on a loom with a shuttle, many textures and colours can be finely applied to a handloomed rug. The technique does lend itself well to plain rugs.

FLATWEAVE

Flatwoven rugs can be both hand and machine made, and crafted in a variety of materials from wool to polypropylene. Flatwoven rugs are highly durable due to having no pile, resulting in no protruding threads. Perfect for high traffic areas throughout the home.

MACHINE WOVEN

Machine woven rugs are highly affordable, and excellent for everyday use. Generally constructed from manmade fibres such as polyester, and polypropylene they are non shedding, easy to clean and stain resistant. As the designs are made using computer software, a large variation of styles and colours can be produced. Excellent technique for fashion led rugs, and to replicate traditional hand knotting techniques and complex colour combinations.

RUG CARE

We recommend routine care and cleaning to keep your rug looking as new and lasting longer. Below we have provided a brief outline on how to clean and manage stains and spillages.

Generally we recommend to vacuum your rug gently on a weekly basis to remove any surface dirt and dust. Avoid vacuuming tassels or fringes as this could cause permanent damage. Rotate your rug frequently to avoid any bleaching from prolonged sun exposure.

Shaggy Rugs: When vacuuming shaggy pile rugs we recommend using a small nozzle attachment on your vacuum to prevent damaging the pile.

Wool Rugs: A common characteristic of wool rugs is shedding, this is when the fibres come away from the rug. This is a natural and common feature of wool rugs, not a manufacturing fault. Gentle, regular vacuuming will take care of this and ensure your wool rug will last longer. Extra care should be taken when looking after your wool rug, spillages should be cleaned immediately (see below) and avoid over wetting when cleaning.

Spillages and Stains:

1. Spillages should be attended to immediately. Use an absorbent clean cloth to soak up the liquid.
2. Apply luke warm water to the area and blot (don't rub) with a clean cloth until the stain is removed. Avoid over wetting of the area as this can cause permanent damage. This process may need to be repeated several times to remove the stain.
3. For solid stains such as chewing gum or wax remove this first then repeat step 2.

A mild soap or detergent can be used to remove difficult stains, but this should be tested on a inconspicuous area first.

Stain Cleaning Treatment

Chewing gum: Freeze using ice, shatter gum, vacuum, warm water & detergent

Wine: Talcum powder then warm water & detergent

Alcohol: Warm water & detergent

Most Makeup: Dry cleaning solvent then warm water & detergent

Urine: Warm water & detergent then white vinegar & water

Blood: Warm water & detergent

Vomit: Warm water & detergent then dry cleaning solvent

Butter: Dry cleaning solvent then warm water & detergent

Wax: Freeze using ice, shatter gum, vacuum, dry cleaning solvent then water & detergent

Shoe Polish: Dry cleaning solvent then warm water & detergent

For persistent and difficult stains, seek professional cleaning.
